To Set The Sun On Fire

book of fulfillment

humanytime 02

the devil is dead

why should we eat flies
in times of need

purely possibilities are real
without the devil

purely decisions are true
without the devil

purely free love is love
without the devil

the devil is the liar

flies are friends
the devil is dead

pastorale 1

what (do you know)

about love

allalong the songline

peace has been reached

and love is about to rule

embrahazed

if i would not be with you

you were not with me

we would not

we are allone

savior

work is no jerk
with his weird events
to sell out the world

why should life be wicked
on earth
to be consumed by fear

what can we listen to
when there is nothing more to say

what can we whisper
when no one dares to move

what can we smell
when the nose is just another
broken bone

this screaming tastes to long

what can we feel
what can we touch
when there is no longing anymore

war is a whore
with her weird offerings
to get the money

why should love be wicked
on earth
to be consumed by death

they feel their heartbeat
and they laugh
but it is an evil feeling
so why do they feel

they think their surrounding
and they laugh
but it is an evil thinking
so why do they think

they consume and pollute the universe
and they laugh
but it is an evil laughter

they punk out their lives
but they cant kill our mind
to be unkind

you came in and walked through
my dream

green hope is all
we can see

clarity

love is the soil of existence

green hope is all
we shall be

unity

the more you give
the less you need

if in the length
there is nothing more to reach

if in width
there is nothing more to understand

if in height
there is nothing more to share

nevertheless
we can find ourselves
amidst a wonder

are you fallen
for the devil

or do you redeem
in Jesus Christ

but anyway
He is the judge

do you burn in hell
or are you a silent flame

higher than the bird on a wire
higher than a cloud in the sky

dance on high
higher than the lies can fly

dance on higher
to set the sun on fire

sound

the sun on fire

sound is one of the possibilities
to understand
Jesus Christ
we can picture
on earth

songs of sorrow
we regret
troubles we forget

pastorale 2

these days i cry
to you
i want to get through

not lost not found
just roundabout

dawn
are you with me

same ocean
same motion

listen silently
joy grows
silently

paradeyes

the night covers one day

fading out

the night covers one day

fading in

stay

we are about to be fulfilled

in joy

alive and free

we dont have to play with fear

not to know

but purely to believe

we all have to give
